

# THE WIN-WIN OUTCOMES OF SK TES' AND AUBOTIC'S PARTNERSHIP

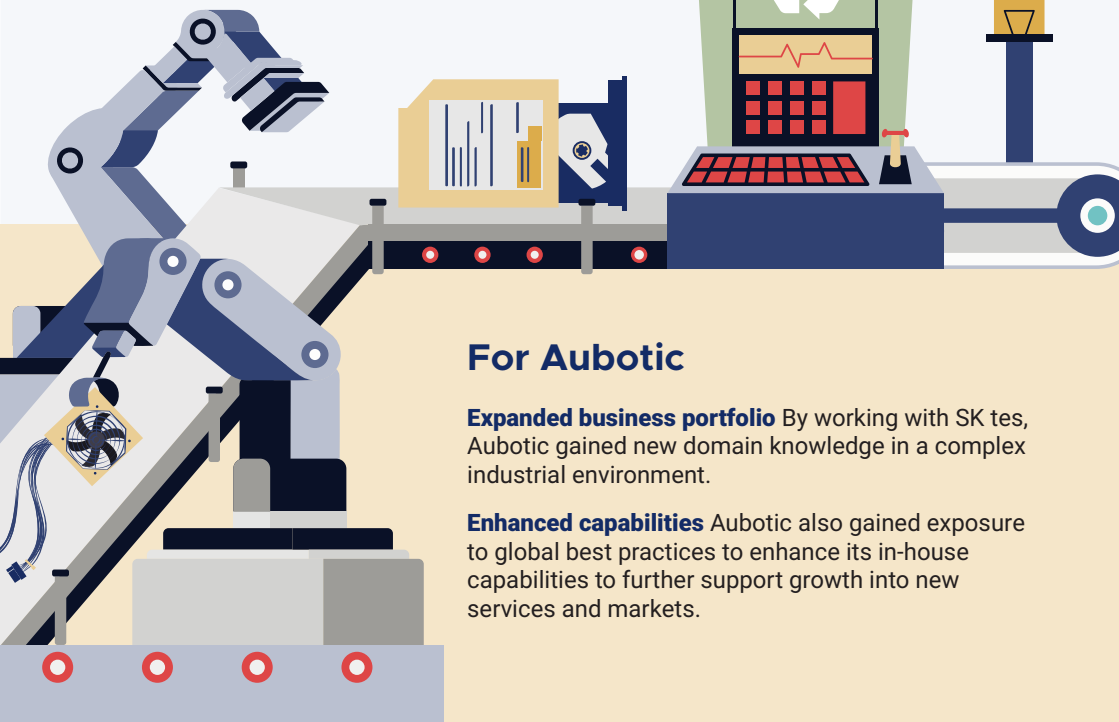

## For SK tes

**Recycling efficiency increased by approximately 40%** By minimising human intervention, recycling output has increased and safety risks reduced.

**Advanced SK tes' mission to support global circular economy solutions** The advanced solution has resulted in more efficient recovery of valuable materials and components from e-waste.

**Unlocked quicker design, optimisation, and faster automation** The collaboration with Aubotic served to strengthen SK tes' global operations from its Singapore hub.

## For Aubotic

**Expanded business portfolio** By working with SK tes, Aubotic gained new domain knowledge in a complex industrial environment.

**Enhanced capabilities** Aubotic also gained exposure to global best practices to enhance its in-house capabilities to further support growth into new services and markets.
