

How Climate Impact X (CIX) drives environmental impact at scale, from Singapore

Tapping Singapore's strengths as a trusted broker and talent hub

- Being based in Singapore positions CIX as a credible platform that can address the erosion of trust in carbon markets
- Access to top global talent and technical expertise in Singapore has enabled CIX to build up its team and offerings quickly

Leveraging Singapore's ecosystem in sustainability

- CIX created an independent [International Advisory Council](#), comprising experts from a range of Singapore-based and global institutions to provide best-practice insights
- Singapore's comprehensive ecosystem has allowed CIX to establish strategic partnerships with other leading enablers in carbon services, such as Nasdaq Technology

Riding on Singapore's leadership in driving high-quality and credible global carbon markets

- Singapore's credibility, amplified by its founding efforts in the World Bank and the International Emissions Trading Association (IETA) joint initiative [Climate Action Data Trust](#), allows CIX to tap into the global carbon market ecosystem with ease
