

THE WIN-WIN OUTCOMES OF DSV AND INVENTIT'S PARTNERSHIP

For DSV

A boost to efficiency

DSV has seen a **39% increase in productivity** in processes where automated systems have been deployed.

Attracting younger talent

Throughout the transformation, DSV paired its automation with workforce development by upskilling staff in robotics and data. This dual approach has **attracted younger talent**, resulting in a **150% increase** in employees under 35 within just one year.

For Inventit

Speeding up growth and transformation

By partnering with a logistics giant like DSV, Inventit has **gained new real-world opportunities** to refine its technology, showcase its solutions at scale, and expand its customer base.
