

# The Smart Move

## Empowering startups for global impact

### GHARAGE Ventures

GHARAGE Ventures is the corporate venture arm of Gebr. Heinemann, which is one of the leading retailers and distributors in the international travel market. The group operates more than 500 duty-free and travel retail shops, brand boutiques and concept stores at international airports, border crossings and cruise ships, including presence in airports across APAC.

#### Why Singapore?

To invest into Pre-Seed to Series A Start-ups within the travel and retail verticals and bring Asia's innovations to global travelers.

Germany

Travel

### Seraphim Space Accelerator Asia

Seraphim Space Accelerator provides investment and commercial support and resources to early-stage space startups. To date, 81 companies from 27 nations have completed Seraphim's programme. 86% of its companies have raised their next funding round within 12 months of programme completion and a collective US\$290 million have been raised by alumni.

#### Why Singapore?

Growing appetite for space innovation in Asia and a budding industry in Singapore. Singapore has sent more than 20 satellites up to space since 2011, and there are currently more than 2,000 professionals and researchers working in more than 60 companies active across different verticals.

### ZEBOX

Founded by the Chairman and CEO of CMA CGM Group, a global player in sea, land, air, and logistics solutions, ZEBOX is a startup accelerator that gathers a network of entrepreneurs, industry leaders, and experts to pave new paths toward sustainability starting with the supply chain. ZEBOX operates in 6 regions and is supported by over 20 international companies.

#### Why Singapore?

Beyond Singapore's pro-business policies, cutting-edge digital infrastructure, and a robust pipeline of skilled talents, the country is a global maritime hub with well-developed infrastructure, strong government support, and a focus on developing sustainable solutions.
